

FLAHIVE, OGDEN & LATSON

ADVISORY NO. 6

TOPIC: Standard Industrial Classification Code (SIC Codes)

DISCUSSION: TWCC-1, the Employer's First Report of Injury, contains a blank requiring that the employer furnish the Commission his standard industrial classification code number (Line 44). This code, created by the Federal Bureau of Labor Statistics, is a numeric code which would apply to all employers.

An employer may obtain code numbers from the Tax Status Department of the Texas Employment Commission.

Alternatively, an index of all SIC codes is available from the U. S. Government book store for \$24.00. To obtain the SIC manual, call the book store at (214) 767-0076, or write:

U.S. Government Book Store
1100 Commerce Street
Room No. 1C46
Dallas, Texas 75242

Checks may be made payable to Superintendent of Documents. Manuals are shipped on the same day checks are received and no tax or shipping charge applies.
