

**ADVISORY NO. 78**

---

**TOPIC: MMI ACCRUAL DATE FOR 104 WEEKS**

Attached is TWCC Advisory 93-03 with an interpretation of Rule 130.2(C) slightly different from the information presented in Flahive, Ogden & Latson Advisory No. 62. TWCC now says the 104 weeks begin to accrue on the worker's eighth day of disability as per Rule 124.7(b), rather than the beginning date of disability.

Please note this change in monitoring your files for the 104-week statutory MMI.
